Dear Rosemarie

I had a bad car accident 5 years ago leaving me brain damaged, with loss of balance, one eye blurred, loss of my job, unable to cook for my family (consisting of 4 kids) and a nasty phase of depression.

I was about to book a trip to Brazil at the healing centre when God led me to you... Quite a few healing sessions with you have showed a remarkable improvement. I have regained most of my balance, I can cook for my family daily, have cut down strongly my anti-depressant tablets too.

I can join in laughter and conversation. I feel like a person again and realize that it is a matter of time for my healing process to be complete.

I thank you Rosemarie for that special gift that God is providing you with.

**Lots of Love
