

27th April 2000

Rosemarie - it is with relief and so much excitement that I send you this note. My x-ray report will only be available from the Doctor on Tuesday. His partner wants to compare them with my first x-ray. They just can't believe that my cancer has gone with only your healing.

The doctor said he was so worried about my case originally and suggested extensive surgery.

Wonderful for me. Thank you for your healing hands.

Rosemarie
