Dearest Rosemarie

A feeling of depression led me to see a person posing and advertising as a “herbalist, healer and astrologer. Those visits ended into witchcraft and my depression worsened. A small piece of my scalp was cut and hair was taken, and then the sacrifice of a bird had to be made where the head had to be removed. I gradually became worse locking myself up in my room for a solid 2 months, hearing voices non-stop, drinking myself to sleep. I kept hearing voices telling me to claim my own life.

I was then referred to Rosemarie from a friend who had heard her on the radio on one of Peter Ngoro’s shows. I have had quite a few sessions with her. She is really a “miracle”, I now no longer need to lock myself anymore or need to use alcohol as a crutch in order to sleep.

Rosemarie is my blessed angel that I carry in my heart.... Sent to me from the heavens.

Natalie
